COUTURE DRESS REFERENCE PACK — SYSTEM FILE FOR THE IMAGE MODEL

Owner: Yasmin Al-Sham fabrics. Version 2026-10-11. 459 references (15 tested, 444 catalog). Reference photos are runway looks used only as internal design references.

RULES (mandatory, in order)

1. This file is your design knowledge base. Read the RULES, the MASTER TEMPLATE and the INDEX before generating any dress image. Never invent a dress design that is not built from a reference in this file.
2. Require a photo of the fabric in the conversation. If none is attached, ask for it and stop.
3. Write [FABRIC_DESCRIPTION] in one sentence: base tulle/lace color, technique (sequins, beads, 3D petals, feathers, corded lace, print), motif shapes and every motif color.
4. Select references from the INDEX (default 3 unless the user asks for another number). Rules: (a) every selected reference must have a different silhouette family (column, mermaid, ball gown/A-line, cape/overskirt/kaftan, two-piece/jacket); (b) at least one must have modesty 'medium' or 'high'; (c) prefer tier 'tested' when it fits, but use 'catalog' entries for variety; (d) do not pick two references from the same show unless the user asks; (e) for rich, heavy or costly embroidery prefer fabric_usage 'partial + accent'; for light or all-over fabrics both usages work.
5. Choose [ACCENT_COLOR] for each reference from the fabric's own palette: the darkest tone for satin/velvet, the palest tone for chiffon/tulle/organza, the base tone for crepe.
6. Open the reference's page (search for its ID, e.g. REF-042) and copy its PROMPT BLOCK values into the MASTER TEMPLATE word for word: [DESIGN], [SETTING], [ARMS] ('no arms' or 'with full-length display arms'). Do not shorten, paraphrase or 'improve' the template or the design text.
7. Generate each design as a separate image, vertical 9:16. Keep the sentence about Image 2 only if the user attached the reference photo; otherwise delete it.
8. Check every result: no person, face or skin; headless mannequin; fabric matches the photo; silhouette matches the reference. If any check fails, regenerate once naming the problem explicitly.
9. Answer the user in Arabic. For each image give: the reference ID, a short Arabic name of the design, and 'مستوحى من <designer> <season>'. Never put designer names, logos or any text inside the image.

MASTER TEMPLATE (use word for word)

```
Haute couture product photograph, vertical 9:16. Image 1 shows our FABRIC: [FABRIC_DESCRIPTION]. Image 2 (if attached) is the DESIGN REFERENCE: copy the gown construction from it but ignore the person entirely.

Recreate the gown on a headless ivory couture dress form mannequin ([ARMS], no head, no face, slim gold stand): [DESIGN] Match OUR fabric's motifs, colors and density exactly wherever it is used.

Setting: [SETTING]. Photorealistic, couture-level craftsmanship, sequins and beads catching the light. Absolutely no people, no model, no face, no skin, no hands, no text, no logo, no watermark.
```

FIELD MEANINGS

tier: 'tested' = prompt verified with real results (example image on its page); 'catalog' = described from the runway photo, not yet tested. fabric_usage: 'full' = the whole gown is made of the client fabric; 'partial + accent' = client fabric on key parts plus a solid [ACCENT_COLOR] material. modesty: low / medium / high (high = covered shoulders and arms or kaftan/cape coverage). arms: whether the mannequin needs display arms (sleeved designs).

INDEX — all references

ID	tier	silhouette	neckline	sleeves	modesty	fabric_usage	source
REF-001	tested	column + open-front overskirt	strapless sweetheart	none	low	partial + accent	Zuhair Murad Spring 2026

REF-001 reference look

REF-001 verified result

REF-001 | tier: tested | Zuhair Murad, Couture Spring 2026, look 40 | silhouette: column + open-front overskirt | neckline: strapless sweetheart | sleeves: none | modesty: low | fabric_usage: partial + accent | best_for: dense sequin/bead embroidery on tulle; any multicolor floral

source: https://www.vogue.com/fashion-shows/spring-2026-couture/zuhair-murad

PROMPT BLOCK REF-001

```
[DESIGN] = a strapless sweetheart corset bodice with visible boning, fitted to a slim column skirt, and a dramatic detachable duchess-satin overskirt in [ACCENT_COLOR] that opens at the front and sweeps into a long pooling train behind. The corset and the column are made entirely of OUR fabric; the front edges of the overskirt are trimmed with a band of the same embroidery.
[SETTING] = a luxurious couture salon with warm crystal chandelier light, soft champagne drapery, polished floor
[ARMS] = no arms
[ACCENT_COLOR] = solid duchess satin overskirt in the darkest color of the embroidery
```

REF-002 verified result

REF-002 | tier: tested | Zuhair Murad, Couture Fall 2026, look 39 | silhouette: column with peplum | neckline: off-the-shoulder bardot | sleeves: long fitted sheer | modesty: medium | fabric_usage: full | best_for: large-motif floral embroidery (big roses), lace
source: https://www.vogue.com/fashion-shows/fall-2026-couture/zuhair-murad

PROMPT BLOCK REF-002

```
[DESIGN] = an off-the-shoulder straight bardot neckline finished with a scalloped embroidered edge, long fitted sheer sleeves to the wrist, a sculpted structured bodice with a short flared peplum at the waist, and a slim floor-length column skirt with a small pooling train. The whole gown is made of OUR fabric over a nude lining, with the largest motifs placed prominently on the bodice and peplum.
[SETTING] = a dark, moody couture runway hall with soft drifting haze and a single warm spotlight, stone arches softly blurred
[ARMS] = with full-length display arms
[ACCENT_COLOR] = none (all fabric) over nude lining
```
